

Stolen Vehicle Recovery

Protecting what matters

In partnership with

TrackerTM

An aerial photograph of a dark, winding road that curves through a dense forest. The road is surrounded by trees with green and yellow foliage. A small white car is visible on the road, positioned in the lower right curve. The overall scene is captured from a high angle, looking down at the road and the surrounding landscape.

The reality of vehicle theft

Vehicle theft affects thousands of people each year, but the impact is wider than just losing your vehicle – there are both financial and emotional consequences.

The consequences of vehicle theft

- Loss of insurance excess
- Loss of no-claims bonus
- Car hire costs
- Insurance settlement delays
- Insurance premium uplift
- Cherished plate re-registration delay
- Personal inconvenience and distress

Why should you choose Tracker™?

- Market leading stolen vehicle recovery service provider
- Trusted for over 25 years
- Unique relationship with all UK police forces
- All products accredited by Thatcham
- Over 1 million Tracker™ devices fitted
- Only system with GPS/GSM anti-jamming measures
- Over £552 million worth of stolen vehicles returned to their rightful owners

All Tracker™ products benefit from:

Digital Very High Frequency (VHF) Tracking - Military-grade patented technology that allows police to locate a vehicle, even when concealed in metal containers or underground car parks

Nationwide support from all UK police forces

Mesh network - Tracker's™ patented network technology allows an activated device to be located by using other passing Tracker™ vehicles to identify reply codes

Unique tracking that is not affected by criminals' GPS/GSM signal jammers

Mainland UK Theft Recovery Service*

Full 12-month warranty

European coverage**

24hr Secure Operating Centre

Covert installation from accredited installers

*Terms and conditions apply

** Partial or full depending on product purchased

Tracker™ offers superb products for peace of mind

Battery Powered Retrieve

With its own in-built power source - Battery Powered Retrieve overcomes the issue of power drain on your asset's battery, even if it's left unused for a long period of time. Because Battery Powered Retrieve doesn't need to be wired into the electrical system, it can be installed into a wider range of vehicles, in many different locations, making this the ideal protection for your asset.

- Long battery life with up to 5 years standby
- Easily installed in vehicles or non-powered assets
- High tech tracking technology that is not affected by GPS/GSM signal jammers
- One-time use operation*

Locate

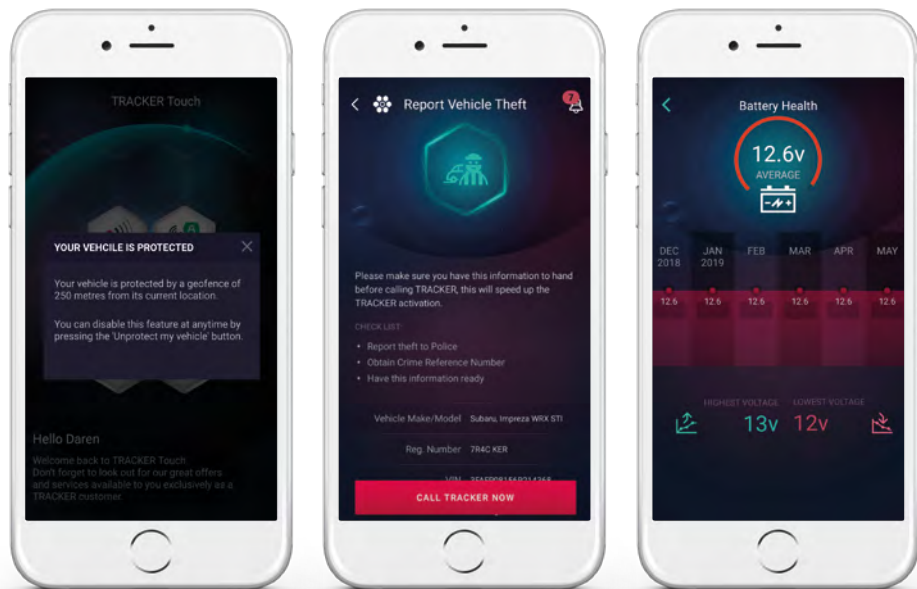

A ground-breaking system with 'jamming' countermeasures to create the ultimate defence against vehicle theft. Locate combines VHF with GPS and GSM technology making this system far more resilient to this form of attack. Crucially, if there is an attempt to jam the communication system, our VHF technology will ensure your vehicle can still be tracked to its exact location.

- Unauthorised movement alert
- Backup battery in the event of theft
- Access to Tracker™ app
- Notifications if your battery is disconnected or running low

*In the event of a theft, you will be required to purchase a new unit and the remaining subscription can be transferred.

Vehicle tracking at the touch of a button

Tracker™ Touch is a free, easy to use app that brings the power of Locate to the palm of your hand. Stay connected and in control, with 24/7 visibility of your vehicle's location and the ability to manage your account.

Key Features

System health

Monitor the health of your Tracker™ system at any time.

Theft reporting

Access all the information you need to report the theft of your vehicle.

Battery health

Keep an eye on the health of your vehicle's battery so you can avoid unnecessary breakdowns.

Crime rating area

Learn the crime rating of an area before you park your car.

Geofence area

As an additional security layer, you can set a Geofence Area by defining a custom perimeter. If your car breaches this location, you will receive an instant alert.

Find my car

Forgotten where you parked? You can use the Tracker™ Touch app to find your car. Using the "Show on map" feature, the vehicle location can be displayed on your preferred map.
