

Genuine Accessories for the Audi A4

Audi Genuine Accessories enables you to personalise your Audi to your specific transport and travel needs. If you've chosen to finance your Audi with us, you can spread the cost as part of your agreement, as long as you confirm your accessories before your car is ready to collect. By having your Audi Genuine Accessories fitted before you collect your new car, you'll benefit from an enhanced warranty period of 3 years, instead of 2 years. This means you can have peace of mind that your accessories will be covered for the same period as your new Audi.
